Preface:

- Product Attachment is a perfect extension for store owner who wants to attach some file or document with the products. Now a day how to use product or product related instruction are must inform to customer, so it's require that ad-min inform customer through document or any other way. So Product Attachment is a most important extension for the store owner.
- Easy to create attachment and can select multiple product for one attachment.
- ad-min can create multiple attachment and assign to multiple products.
- owner can attach any type of document or image with the products.
- ad-min can assign multiple attachment to single products also.
- In front product view page if there is any attachment then display that attachment into the attachment Tab otherwise tab is not displayed.
- Easy to configure extension.

Installation:

There are two ways of installing extension in magento2.

- 1) Using COMMAND LINE.
- 2) Manually install extension.

Option 1: Magento 2 install extension using COMMAND LINE (Recommended).

Follow below steps to install extension from the command line.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management.

Step 4: Enter the following at the command line:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Product attachment. The module will be displayed in the admin panel.

Option 2: Magento 2 install extension manually.

Step 1: Download the extension and unzip it.

Step 2: Upload it to code directory in your magento installation's app directory. If code directory does not exist then create.

Step 3: Disable the cache under System → Cache Management Edit app/etc/config.php file and add one line code: 'Mageants_Product attachment' → 1

Step 4: Disable the cache under System → Cache Management

Step 5: Once you complete above steps log out and log in back to the admin panel and switch to Stores → Configuration → Mageants → Product attachment, the module will be displayed in the admin panel.

Frontend example

Product Attachment into product page.

The screenshot shows a product page for shorts. At the top, there is a main image of a person wearing shorts, a smaller thumbnail image to the left, and a blue 'Add to Cart' button. Below the main image are three action buttons: 'ADD TO WISH LIST', 'ADD TO COMPARE', and 'EMAIL'. A navigation bar contains tabs for 'Details', 'More Information', 'Attachment', and 'Reviews'. The 'Attachment' tab is active, displaying a 'Downloads Attachments' table:

No.	File	Description
1)		User Guide
2)		Product Attachment Logo

An orange callout box with the text 'Attachment in a Product attachment tab' and an arrow points to the 'Attachment' tab.
